FINE SCANDINAVIA VIETNAM

Fine Scandinavia is a Swedish owned manufacturing company founded in 2007. We always aim to be one of the top providers of design, development & manufacturing both in metal, which is our DNA, and other materials such as: wood, glass, stone, marble, textile, natural fibers and more. We provide a complete product design & development service. We work from idea, 3D engineering & visualization, sampling and testing to finale customer approved sample for mass-production launch and delivery.

/ VISION and MISSION

Maintain our commitment to **design** and **innovation, honesty**, and client satisfaction through practices that balance our commercial, social, and environmental goals to create a long-term and sustainable business for the benefit of all our stakeholders.

Reach the highest manufacturing standards, and **meet the needs** of our clients through great design and development of high quality products at a **competitive pricing and reliable delivery**.

/ FACILITIES

We have a total workforce of 250 skilled and experienced staffs who work in our manufacturing facilities, plus another 50 in our administration, QA, Technical, R&D and Design Department. We offer a modern, scalable, reliable, ISO and BSCI certified production, from planning phase to finished product. Our facilities cover more than 8000 square meters of modern manufacturing.

Capacity of **50 containers/month** on one working shift.
