“ Along with the desire to bring Vietnamese values and pride into every product, JAGER expects not only to create high quality wooden furniture but also to pioneer in changing the way of traditional production, save social resources, bring high living values to customers and the community. With Jager, we provide luxury furniture products to the investors – real estate group, designers and individual clients.

With the JAGER brand, we provide high quality furniture products to investors who are large real estate corporations, designers and individual customers.

However, also at JAGER, we eliminate the complexity of normal furniture retail, using technology to keep direct customer communication to a minimum but still highly effective. All customers can control their creation, design and production of their space as much as possible without spending too much time meeting and exchanging directly. It would minimize intermediate time and increase work efficiency.

”

### 01 APPLICABILITY:

PP film, also known as Nano foil, with flexibility, anti-light reflection... is the optimal solution in manufacturing furniture details that need sophistication such as closet wings with seamless 90-degree folding edges, seamless J handle, 45-degree beveled handle.

### 02 ENVIRONMENT FRIENDLY:

Free of formaldehyde, preservatives, heavy metals and other harmful substances, comply with furniture requirements that are safe for health and environment protection.

### 03 HIGH TECHNOLOGY:

Perfect coating on metal surfaces and other materials such as HDF, MDF, ...

### 04 EFFECTIVE:

Anti-glare, wear-resistant, anti-stains, easy to clean, color fastness. The appearance and feeling same as natural wood, wood grain is so real. Waterproof, moisture-proof, anti-penetration and anti-UV.

### 05 NEW STANDARD:

Completely replacing PVC film materials, improving the quality of furniture products.
