# We are proud to be one of the best metal furniture manufacturers in Vietnam.

## WHO WE ARE

Fine Scandinavia is a Swedish owned metal manufacturing company founded in 2007. We always aim to be one of the top providers of design, development & manufacturing both in metal, which is our DNA, and other materials such as: wood, glass, stone, marble, textile, natural fibers and more.

## WHAT WE DO

We provide a complete product design & development service. We work from idea, 3D engineering & visualization, sampling and testing to finale customer approved sample for mass-production launch and delivery.

# Our services

- Manufacture
- Design & development
- Quality assurance

We provide our customers the flexibility of new product generating: develop from our original FS designs, from our customer's ideas, or simply improve existing products.

Our R&D and Design team work from idea, 3D visualization, sampling and testing, to finale customer approved sample and preparation for mass production launch.

We have the complete production lines of steel sheets, tubes, and wire products, including a powder coating line & wet paint finishing department, plus 12 assembly & packing lines.

## FACILITIES

We have a total workforce of 250 skilled and experienced staffs who work in our manufacturing facilities, plus another 50 in our administration, QA, Technical, R&D and Design Department. We offer a modern, scalable, reliable, ISO and BSCI certified production, from planning phase to finished product. Our facilities cover more than 8000 square meters of modern manufacturing. Capacity of 80-100 containers/month.

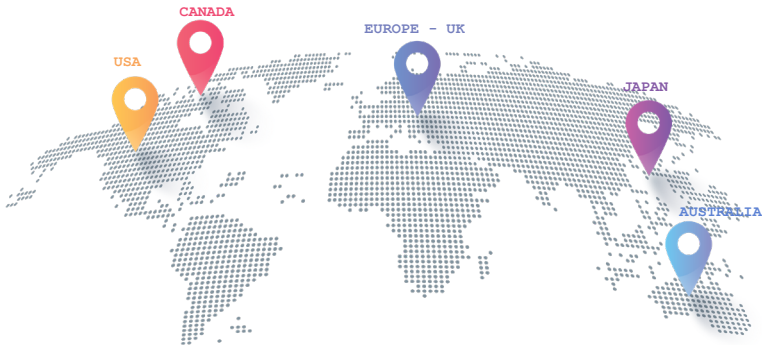

## VISION & MISSION

Maintain our commitment to design and innovation, honesty, and client satisfaction through practices that balance our commercial, social, and environmental goals to create a long-term and sustainable business for the benefit of all our stakeholders. Reach the highest manufacturing standards, and meet the needs of our clients through great design and development of high quality products at a competitive pricing and reliable delivery.

Manufacture industrial  
products and solutions

# Production lines

Our facilities cover over 8000 square meters of modern manufacturing. Our factory has complete production lines of steel sheets, tubes, and wire products, including a powder coating line & wet paint finishing department, plus 12 assembly and packing lines. With our manufacturing partners we supply finished metal and wood products combined with glass, marble, stone, concrete, natural fibers, textile and more. Our factory is constructed for high efficiency production including CNC and Robot machines optimizing the accurateness & speed of the mass-production processes. We also have very skilled employees who are producing the more handcrafted detailed products which the machines can't handle.
